

FAIL NOT™ HARDWARE INSTALL

- Use the FN-T3 for quicker install of 2x4 and 2x6 stock Main Railing sizes
- Use for JIG to hold down FAIL NOT™ Hardware when drilling and securing to Main Railings
- Lifetime Tool Warranty
- Rent or Purchase

1. Use two FN-T3 Positioning Tools to assure your Carbon Fiber Hardware is centered from front to back
2. Use center notch built into the Carbon Fiber to center the Hardware from left to right
3. Use clamps to hold everything in place
4. Filler is attached to the Carbon Fiber
