

FAIL NOT™ TOOL KIT

The Fence Quarter Tool Box contains everything you need to install your Fence Quarter Deck Railing Inserts with the FAIL NOT™ hardware.

The Tool Box is made of a sturdy, heavy duty composite material and is reinforced with modeled foam to keep your tools safe and secure.

This tool kit is designed for a Main Rail size of a 2x4 or 2x6 main rail and is specific for our Optional Carbon Fiber FAIL NOT Hardware System only. The adjustable centering jigs speed up the installation of the FAIL NOT Hardware while perfectly centering the Insert System between the posts. There is no need to pull your tape measure out with this system. The custom made drill bore set gives the perfect depth drill hole for mounting our Stainless Steel Flanged screws into place.

The tool box includes:

- Hand Clamps
- Position Tool
- Stubby Ratchet
- Counter Bore Driver
- Counter Bore Drill Set
- Counter Bore Drill Bit
- Lockdown Screwdriver
- Lockdown Screw Bit Driver
- Lockdown Screw Mount Driver
